Publication Date: May 2020

Overview of the EPA Brownfields Program

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. The Small Business Liability Relief and Brownfields Revitalization Act of 2002, as amended by the Brownfields Utilization, Investment and Local Development Act of 2018, was passed to help states and communities around the country clean up and revitalize brownfield sites. Under this law, EPA provides financial assistance to eligible applicants through five competitive grant programs: Multipurpose Grants, Assessment Grants, Revolving Loan Fund Grants, Cleanup Grants, and Environmental Workforce Development and Job Training Grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

Cleanup Grant

\$500,000

EPA has selected Invest Atlanta for a Brownfields Cleanup Grant. Grant funds will be used to clean up Segment 2 of the Southside Corridor of the Atlanta Beltline, which is located from the southern projection of Windsor Avenue SW to Milton Avenue SE. The site is 0.85 miles of an abandoned railroad corridor that was an active freight route between 1899 and 1914. It is currently being used as an unpaved interim trail and is contaminated with heavy metals and polycyclic aromatic hydrocarbons. It also is located within a Qualified Opportunity Zone. Grant funds also will be used to support community outreach activities.

For further information, including specific grant contacts, additional grant information, brownfields news and events, and publications and links, visit the EPA Brownfields Web site (<http://www.epa.gov/brownfields>).

The information presented in this fact sheet comes from the grant application; EPA cannot attest to the accuracy of the information. The cooperative agreement is negotiated after the selection announcement. Therefore, the funding amount and activities described in this fact sheet are subject to change.
