Number:** EPA-560-F-21-179  
**Publication  
Date:** May 2021

### Overview of the EPA Brownfields Program

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. The Small Business Liability Relief and Brownfields Revitalization Act of 2002, as amended by the Brownfields Utilization, Investment and Local Development Act of 2018, was passed to help states and communities around the country clean up and revitalize brownfield sites. Under this law, EPA provides financial assistance to eligible applicants through five competitive grant programs: Multipurpose Grants, Assessment Grants, Revolving Loan Fund Grants, Cleanup Grants, and Environmental Workforce Development and Job Training Grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

### Cleanup Grant

**\$181,794**

EPA has selected the Boone County Community Development Corporation for a Brownfields Cleanup Grant. Grant funds will be used to clean up the former Lyon Oil Property located at 10 Avenue C in the City of Madison. The cleanup site was formerly used as an ice storage facility and as a bulk petroleum storage facility, and more recently as a used oil collection, storage, and recycling facility. It is contaminated with various petroleum-based products, including gasoline, diesel fuel, and used oil. Grant funds also will be used to develop a reuse plan for the property.

For further information, including specific grant contacts, additional grant information, brownfields news and events, and publications and links, visit the EPA Brownfields Web site (<http://www.epa.gov/brownfields>).

*The information presented in this fact sheet comes from the grant application; EPA cannot attest to the accuracy of the information. The cooperative agreement is negotiated after the selection announcement. Therefore, the funding amount and activities described in this fact sheet are subject to change.*
