Land and Emergency Management (5105T)  
Washington, D.C. 20460

**Publication Number:** EPA-560-F-21-042  
**Publication Date:** May 2021

## **Overview of the EPA Brownfields Program**

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. The Small Business Liability Relief and Brownfields Revitalization Act of 2002, as amended by the Brownfields Utilization, Investment and Local Development Act of 2018, was passed to help states and communities around the country clean up and revitalize brownfield sites. Under this law, EPA provides financial assistance to eligible applicants through five competitive grant programs: Multipurpose Grants, Assessment Grants, Revolving Loan Fund Grants, Cleanup Grants, and Environmental Workforce Development and Job Training Grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

## **Assessment Grant**

*\$300,000*

EPA has selected East Bay Community Energy for a Brownfields Assessment Grant. Community-wide grant funds will be used to conduct five Phase I and three Phase II environmental site assessments, and develop two cleanup plans and one site reuse plan. Grant funds also will be used to inventory and select sites and conduct community outreach activities. Activities will focus on the target areas of Alameda County and the City of Tracy in San Joaquin County. Priority sites will be identified by their feasibility for redevelopment into renewable energy electric vehicle charging hubs.

For further information, including specific grant contacts, additional grant information, brownfields news and events, and publications and links, visit the EPA Brownfields Web site (<http://www.epa.gov/brownfields>).
