**Publication  
Date:** May 2022

### Overview of the EPA Brownfields Program

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. The Small Business Liability Relief and Brownfields Revitalization Act of 2002, as amended by the Brownfields Utilization, Investment and Local Development Act of 2018, was passed to help states and communities around the country clean up and revitalize brownfield sites. Under this law, EPA provides financial assistance to eligible applicants through five competitive grant programs: Multipurpose Grants, Assessment Grants, Revolving Loan Fund Grants, Cleanup Grants, and Environmental Workforce Development and Job Training Grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

### Cleanup Grant

*\$500,000*

EPA has selected Hamilton Township for a Brownfields Cleanup Grant. Grant funds will be used to clean up the former Nearpara Rubber Factory site located at 1849 East State Street. The 3-acre site was formerly a rubber manufacturing and recycling plant that has been vacant and non-operational since 1993 and is contaminated with PCBs and metals co-mingled with petroleum products. Grant funds also will be used to conduct community outreach activities.

For further information, including specific grant contacts, additional grant information, brownfields news and events, and publications and links, visit the EPA Brownfields Web site (<http://www.epa.gov/brownfields>).
