Publication Date: May 2022

Overview of the EPA Brownfields Program

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. The Small Business Liability Relief and Brownfields Revitalization Act of 2002, as amended by the Brownfields Utilization, Investment and Local Development Act of 2018, was passed to help states and communities around the country clean up and revitalize brownfield sites. Under this law, EPA provides financial assistance to eligible applicants through five competitive grant programs: Multipurpose Grants, Assessment Grants, Revolving Loan Fund Grants, Cleanup Grants, and Environmental Workforce Development and Job Training Grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

Assessment Grant

\$400,100

EPA has selected the Municipality of Aguas Buenas for a Brownfields Assessment Grant. Community-wide grant funds will be used to develop an inventory of brownfield sites and conduct 10 Phase I and up to nine Phase II environmental site assessments. Grant funds also will be used to develop up to 10 cleanup plans and to support community outreach activities. The target area for this grant is the PR156/174 Corridor, an urban area in the Municipality of Aguas Buenas where most commercial and industrial activity occurs. Priority sites include a former school, a vacant gas station, a former electronic components manufacturer, an apartment building, and a former public housing complex.

For further information, including specific grant contacts, additional grant information, brownfields news and events, and publications and links, visit the EPA Brownfields Web site (<http://www.epa.gov/brownfields>).

The information presented in this fact sheet comes from the grant application; EPA cannot attest to the accuracy of the information. The cooperative agreement is negotiated after the selection announcement. Therefore, the funding amount and activities described in this fact sheet are subject to change.
