Washington, D.C. 20460  
**Publication Number:** EPA-560-F-22-194  
**Publication Date:** May 2022

### Overview of the EPA Brownfields Program

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. The Small Business Liability Relief and Brownfields Revitalization Act of 2002, as amended by the Brownfields Utilization, Investment and Local Development Act of 2018, was passed to help states and communities around the country clean up and revitalize brownfield sites. Under this law, EPA provides financial assistance to eligible applicants through five competitive grant programs: Multipurpose Grants, Assessment Grants, Revolving Loan Fund Grants, Cleanup Grants, and Environmental Workforce Development and Job Training Grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

### Assessment Grant

*\$500,000*

EPA has selected the City of Laurinburg for a Brownfields Assessment Grant. Community-wide grant funds will be used to inventory sites and conduct 18 Phase I and five Phase II environmental site assessments. Grant funds also will be used to develop two cleanup plans and two area-wide plans, and to support community outreach activities. The target area for this grant is the

“Laurinburg After Five” block in downtown Laurinburg. Priority sites include a cluster of five vacant storefronts, a former hotel that is severely dilapidated, and a former concrete factory that is adjacent to a local creek.

For further information, including specific grant contacts, additional grant information, brownfields news and events, and publications and links, visit the EPA Brownfields Web site (<http://www.epa.gov/brownfields>).
