Overview of the EPA Brownfields Program

EPA's Brownfields Program empowers states, Tribal Nations, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. The Small Business Liability Relief and Brownfields Revitalization Act of 2002, as amended by the Brownfields Utilization, Investment and Local Development Act of 2018, was passed to help states, Tribal Nations, and communities around the country clean up and revitalize brownfield sites. Under this law, EPA provides financial assistance to eligible applicants through five competitive grant programs: Multipurpose Grants, Assessment Grants, Revolving Loan Fund Grants, Cleanup Grants, and Brownfields Job Training Grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

Brownfields Job Training Grant funds are provided to nonprofit organizations and other eligible entities to recruit and train unemployed and underemployed residents from communities affected by environmental pollution, economic disinvestment, and brownfields and place them in environmental jobs. Since the program was created in 1998, EPA has funded 371 job training grants totaling over \$79 million through the Brownfields Job Training program. A total of 20,341 individuals have been trained and 15,168 individuals have been placed in full-time careers related to land remediation and environmental health and safety. The average starting wage for these jobs is more than \$14 an hour. This equates to a cumulative placement rate of approximately 75 percent.

Job Training Grant

\$500,000.00

EPA has selected Northwest Regional Workforce Investment Board, Inc., for a Brownfields Job Training grant. Northwest Regional Workforce Investment Board, Inc., plans to train 80 students and place at least 72 in environmental jobs. The training program includes 146 hours of instruction in 40-Hour HAZWOPER, Lead Worker Initial Training, Asbestos Supervisor Initial Training, OSHA 10, EPA Lead Safety for Renovation, Repair, and Repainting, Confined Spaces, and Respiratory Protection. Students who complete the training will earn up to three state and four federal certifications. Northwest Regional Workforce Investment Board, Inc. is targeting students within the City of Waterbury, specifically low-income, minority, unemployed, or underemployed residents. Key partners include Dayton Construction Company, Inc., the Joint Apprenticeship and Training Directors Committee of Connecticut, the Naugatuck Valley Council of Governments, the Northwest Connecticut Chamber of Commerce, the Stamford Wrecking Company, VillWell Builders, the Waterbury Development Corporation, the Waterbury Neighborhood Council, the Waterbury Police Activity League, and the Waterbury Regional Chamber of Commerce.
