Washington, D.C. 20460  
**Publication Number:** EPA 560-F-23-316  
**Publication Date:** December 2022

### Overview of the EPA Brownfields Program

EPA's Brownfields Program empowers states, Tribal Nations, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. The Small Business Liability Relief and Brownfields Revitalization Act of 2002, as amended by the Brownfields Utilization, Investment and Local Development Act of 2018, was passed to help states, Tribal Nations, and communities around the country clean up and revitalize brownfield sites. Under this law, EPA provides financial assistance to eligible applicants through five competitive grant programs: Multipurpose Grants, Assessment Grants, Revolving Loan Fund Grants, Cleanup Grants, and Brownfields Job Training Grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

Brownfields Job Training Grant funds are provided to nonprofit organizations and other eligible entities to recruit and train unemployed and underemployed residents from communities affected by environmental pollution, economic disinvestment, and brownfields and place them in environmental jobs. Since the program was created in 1998, EPA has funded 371 job training grants totaling over \$79 million through the Brownfields Job Training program. A total of 20,341 individuals have been trained and 15,168 individuals have been placed in full-time careers related to land remediation and environmental health and safety. The average starting wage for these jobs is more than \$14 an hour. This equates to a cumulative placement rate of approximately 75 percent.

### Job Training Grant

*\$500,000.00*

EPA has selected the City of Rochester for a Brownfields Job Training grant. The City of Rochester plans to train 100 students and place at least 82 in environmental jobs. The training program includes 132 hours of instruction in 40-Hour HAZWOPER, Asbestos Handler/ Worker Certification, Air Monitor/ Asbestos Project Monitor Certification, OSHA 10-hour Construction Site Safety, and Construction

Inspection. Students who complete the training will earn up to one state and three federal certifications. The City of Rochester is targeting students from the city, specifically dislocated workers, underemployed or unemployed individuals, veterans, or those who have little to no advanced education. Key partners include Aramsco, Inc., Charles House Neighbors in Action, Charles Settlement House and Community Place of Greater Rochester, DAY Environmental, Greenman-Pedersen, Inc., LaBella Associates, Livingston Associates, Lozier Environmental Consulting, Inc., Lu Engineers, Monroe 2-Orleans BOCES Center for Workforce Development, Ravi Engineering and Land Surveying, P.C., RochesterWorks, Inc., the City of Rochester Department of Environmental Services, and UNiCON.
