Publication Date: December 2022

Overview of the EPA Brownfields Program

EPA's Brownfields Program empowers states, Tribal Nations, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. The Small Business Liability Relief and Brownfields Revitalization Act of 2002, as amended by the Brownfields Utilization, Investment and Local Development Act of 2018, was passed to help states, Tribal Nations, and communities around the country clean up and revitalize brownfield sites. Under this law, EPA provides financial assistance to eligible applicants through five competitive grant programs: Multipurpose Grants, Assessment Grants, Revolving Loan Fund Grants, Cleanup Grants, and Brownfields Job Training Grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

Brownfields Job Training Grant funds are provided to nonprofit organizations and other eligible entities to recruit and train unemployed and underemployed residents from communities affected by environmental pollution, economic disinvestment, and brownfields and place them in environmental jobs. Since the program was created in 1998, EPA has funded 371 job training grants totaling over \$79 million through the Brownfields Job Training program. A total of 20,341 individuals have been trained and 15,168 individuals have been placed in full-time careers related to land remediation and environmental health and safety. The average starting wage for these jobs is more than \$14 an hour. This equates to a cumulative placement rate of approximately 75 percent.

Job Training Grant

\$500,000.00

EPA has selected West End Neighborhood House, Inc. for a Brownfields Job Training grant. West End Neighborhood House, Inc. plans to train 128 students and place at least 100 in environmental jobs. The training program includes 146 hours of instruction in 40-Hour HAZWOPER, OSHA General Industry, OSHA Forklift Operator, EPA Lead Renovation, Repair, and Paint, Mold and Microbial

Worker, OSHA Confined Space Entry, Lock Out/Tag Out, Covid-19 Infection Clean Up, Bloodborne Pathogens/CPR, Soil Sampling, Asbestos Worker I, and Lead Abatement Worker. Students who complete the training will earn up to two state and eight federal certifications. West End Neighborhood House, Inc., is targeting students within the City of Wilmington, specifically underemployed or unemployed individuals, veterans, and residents with justice-system involvement. Key partners include BrightFields, Inc., Burris Logistics, the City of Wilmington's Office of the Mayor, Clean Harbors, EcoLab, and Moran Environmental.
