Date:** December 2023

Overview of the EPA Brownfields Program

EPA's Brownfields Program empowers states, Tribal Nations, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. The Small Business Liability Relief and Brownfields Revitalization Act of 2002, as amended by the Brownfields Utilization, Investment and Local Development Act of 2018, was passed to help states, Tribal Nations, and communities around the country clean up and revitalize brownfield sites. Under this law, EPA provides financial assistance to eligible applicants through five competitive grant programs: Multipurpose Grants, Assessment Grants, Revolving Loan Fund Grants, Cleanup Grants, and Brownfields Job Training Grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

Brownfields Job Training Grant funds are provided to nonprofit organizations and other eligible entities to recruit and train unemployed and underemployed residents from communities affected by environmental pollution, economic disinvestment, and brownfields and place them in environmental jobs. Since the program was created in 1998, EPA has awarded 414 job training grants totaling over \$100.5 million through Brownfield Job Training Programs. With these grants, more than 21,500 individuals have completed training and over 16,370 individuals have been placed in careers related to land remediation and environmental health and safety. This equates to a cumulative placement rate of approximately 75 percent. The average starting wage for these jobs is more than \$15 an hour.

Job Training Grant

\$500,000.00

EPA has selected YouthBuild Louisville for a Brownfields Job Training Grant. YouthBuild Louisville plans to train 80 students and place at least 70 in environmental jobs. The training program includes 261 hours of instruction in 40-Hour HAZWOPER, 8-Hour HAZWOPER Supervisor, EPA RRP - Initial Certification - Lead Renovator Training, CDL, DOT Hazardous Materials, Asbestos Abatement

Worked, and CPR/First Aid. Students who complete the training will earn up to seven federal certifications. YouthBuild Louisville is targeting students within West Louisville, a primarily low-income, minority community that has been historically affected by economic disinvestment, health disparities, and disproportionate and adverse exposures to environmental contamination. Key partners include BCA Environmental Consultants, Family Scholar House, Goodwill Industries of Kentucky, and Tetra Tech.

For further information, including specific grant contacts, additional grant information, brownfields news and events, and publications and links, visit the EPA Brownfields Web site (<http://www.epa.gov/brownfields>).
