Washington, D.C. 20460

**Publication Number:** EPA 560-F-10-137  
**Publication Date:** April 2010

## Overview of the EPA Brownfields Program

EPA's Brownfields Program empowers states, communities, and other stakeholders to work together to prevent, assess, safely clean up, and sustainably reuse brownfields. A brownfield site is real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. In 2002, the Small Business Liability Relief and Brownfields Revitalization Act was passed to help states and communities around the country cleanup and revitalize brownfields sites. Under this law, EPA provides financial assistance to eligible applicants through four competitive grant programs: assessment grants, revolving loan fund grants, cleanup grants, and job training grants. Additionally, funding support is provided to state and tribal response programs through a separate mechanism.

## Cleanup Grant

*\$200,000 for hazardous substances*

EPA has selected the Community Development Support Association, Inc., for a brownfields cleanup grant. Hazardous substances grant funds will be used to clean up the former Newman's Department Store site at 116 South Independence Avenue in Enid. The site building is contaminated with metals and inorganic contaminants.

For further information, including specific grant contacts, additional grant information, brownfields news and events, and publications and links, visit the EPA Brownfields Web site (<http://www.epa.gov/brownfields>).
